SAFETY DATA SHEET

SECTION 1. IDENTIFICATION

Product identifier used on the label : Trailer Brightener
Other means of identification : 00356, 00357, 00358
Recommended use of the chemical and restrictions on use :
   Acid cleaner, Stainless steel cleaner
   Restriction on use: None known
Chemical family : Mixture.
Name, address, and telephone number of the manufacturer:
FPPF Chemical Company, Inc.
117 West Tupper Street
Buffalo, NY, USA 14201
Manufacturer's Telephone #: 1-800-735-3773
24 Hr. Emergency Tel #: Chemtrec 1-800-424-9300 (Within Continental U.S.); Chemtrec 703-527-3887 (Outside U.S.).

Name, address, and telephone number of the supplier:
Refer to manufacturer

SECTION 2. HAZARDS IDENTIFICATION

Classification of the chemical
Blue liquid. Acrid odor.
This material is classified as hazardous under U.S. OSHA regulations (29CFR 1910.1200) (Hazcom 2012) and Canadian WHMIS regulations (Hazardous Products Regulations) (WHMIS 2015).

Classification
Acute Toxicity, oral - Category 2
Acute toxicity (dermal) - Category 1
Acute toxicity, inhalation - Category 2
Eye Damage/Irritation - Category 1
Skin Corrosion/Irritation - Category 1

Label elements

Hazard pictogram(s)

Signal Word
DANGER!

Hazard statement(s)
Fatal if swallowed.
Fatal in contact with skin.
Fatal if inhaled.
Causes severe skin burns and eye damage.
SAFETY DATA SHEET

Precautionary statement(s)

Wash thoroughly after handling. 
Do not eat, drink or smoke when using this product. 
Do not get in eyes, on skin, or on clothing. 
Do not breathe mist or vapor. 
Use only outdoors or in a well-ventilated area. 
In case of inadequate ventilation wear respiratory protection. 
Wear protective gloves/clothing and eye/face protection. 

Immediately call a POISON CENTER or doctor/physician. 
IF SWALLOWED: Rinse mouth. Do NOT induce vomiting. 
IF INHALED: Remove person to fresh air and keep comfortable for breathing. 
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. 
Continue rinsing. 
IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower. Wash contaminated clothing before reuse. 

Store in a well-ventilated place. Keep container tightly closed. Store locked up. 

Dispose of contents/container in accordance with local regulation. 

Other hazards

Other hazards which do not result in classification: Corrosive to respiratory system Contact with most metals will generate flammable hydrogen gas. 

Environmental Precautions: See Section 12 for more environmental information. 

SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS

</tr>
</tbody>
</table>

The exact concentrations of the above listed chemicals are being withheld as a trade secret. 

SECTION 4. FIRST-AID MEASURES

Description of first aid measures

Ingestion: Seek immediate medical attention/advice. Do NOT induce vomiting. Never give anything by mouth to an unconscious person.

Inhalation: Immediately remove person to fresh air. If breathing has stopped, give artificial respiration. If breathing is difficult, give oxygen by qualified medical personnel only. Seek immediate medical attention/advice.

Skin contact: Remove/Take off immediately all contaminated clothing. Immediately flush skin with gently flowing, running water for at least 20 minutes. Seek immediate medical attention/advice.

Eye contact: Immediately flush eyes with running water for at least 20 minutes. Seek immediate medical attention/advice.

Most important symptoms and effects, both acute and delayed

Causes severe skin burns and eye damage. Corrosive to the eyes and may cause severe damage including blindness. Direct skin contact may cause corrosive skin burns, deep ulcerations and possibly permanent scarring. Fatal if swallowed, in contact with skin or if inhaled.
SAFETY DATA SHEET

Section 5. Fire-Fighting Measures

Extinguishing media

Suitable extinguishing media

- Dry chemical, carbon dioxide and foam.

Unsuitable extinguishing media

- Do not use water. May react with water.

Special hazards arising from the substance or mixture / Conditions of flammability

- Closed containers may rupture if exposed to excess heat or flame due to a build-up of internal pressure.

Flammability classification (OSHA 29 CFR 1910.106)

- Non-flammable.

Hazardous combustion products

- Carbon oxides; Sulphur oxides; Hydrogen fluorine gas; formaldehyde; irritating fumes and smoke.

Special protective equipment and precautions for firefighters

Protective equipment for fire-fighters

- Firefighters should wear proper protective equipment and self-contained breathing apparatus with full face piece operated in positive pressure mode. Firefighters must use standard protective equipment including flame retardant coat, helmet with face shield, gloves, rubber boots, and in enclosed spaces, SCBA.

Special fire-fighting procedures

- Move containers from fire area if safe to do so. Cool closed containers exposed to fire with water spray. Do not allow run-off from fire fighting to enter drains or water courses. Dike for water control.

Section 6. Accidental Release Measures

Personal precautions, protective equipment and emergency procedures

- All persons dealing with clean-up should wear the appropriate protective equipment including self-contained breathing apparatus. Keep all other personnel upwind and away from the spill/release. Restrict access to area until completion of clean-up. Refer to Section 8, EXPOSURE CONTROLS AND PERSONAL PROTECTION, for additional information on acceptable personal protective equipment.

Environmental precautions

- Ensure spilled product does not enter drains, sewers, waterways, or confined spaces. For large spills, dike the area to prevent spreading.

Methods and material for containment and cleaning up

- Ventilate area of release. Remove all sources of ignition. Prevent further leakage or spillage if safe to do so. Use only non-sparking tools and equipment in the clean-up process. In case of acid solution, neutralize with excess soda ash or sodium bicarbonate, mix and scoop up slurry. Wash residual with water. Do not use combustible absorbents, such as sawdust. Bond and ground transfer containers and equipment to avoid static accumulation. Pick up and transfer to properly labeled containers. Contaminated absorbent material may pose the same hazards as the spilled product. Contact the proper local authorities.

Special spill response procedures

- In case of a transportation accident, in the United States contact CHEMTREC at 1-800-424-9300 or International at 1-703-527-3887. If a spill/release in excess of the EPA reportable quantity is made into the environment, immediately notify the national response center in the United States (phone: 1-800-424-8802).

US CERCLA Reportable quantity (RQ): Hydrofluoric acid (100 lbs / 45.4 kg); Sulfuric acid (1000 lbs / 454 kg)
SAFETY DATA SHEET

SECTION 7. HANDLING AND STORAGE

Precautions for safe handling: Use in a well-ventilated area. Wear suitable protective equipment during handling. Do not ingest. Do not breathe mist or vapor. Avoid contact with skin, eyes and clothing. Keep away from heat, sparks and open flames. Keep away from combustible material. Avoid contact with incompatible materials. Wash thoroughly after handling.

Conditions for safe storage: Store in a cool, dry, well-ventilated area. Store away from incompatibles and out of direct sunlight. Storage area should be clearly identified, clear of obstruction and accessible only to trained and authorized personnel. Inspect periodically for damage or leaks. No smoking in the area.

SECTION 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Exposure Limits:

<table>
<thead>
<tr>
<th>Chemical Name</th>
<th>Chemical Name</th>

</tr>
</tbody>
</table>

Exposure controls

Ventilation and engineering measures: Use only outdoors or in a well-ventilated area. Apply technical measures to comply with the occupational exposure limits. Where reasonably practicable this should be achieved by the use of local exhaust ventilation and good general extraction. Use explosion-proof electrical and ventilating equipment. In case of insufficient ventilation wear suitable respiratory equipment.

Respiratory protection: If engineering controls and work practices are not effective in controlling exposure to this material, then wear suitable approved respiratory protection. If the TLV is exceeded, a NIOSH/MSHA-approved respirator is advised. Respirators should be selected based on the form and concentration of contaminants in air, and in accordance with OSHA (29 CFR 1910.134) or CSA Z94.4-02.

Skin protection: Wear protective gloves. The suitability for a specific workplace should be discussed with the producers of the protective gloves.

Eye / face protection: Chemical splash goggles must be worn when handling this material. A full face shield may also be necessary.

Other protective equipment: Wear resistant clothing and boots. Other equipment may be required depending on workplace standards. An eyewash station and safety shower should be made available in the immediate working area.

General hygiene considerations: Do not breathe mist or vapor. Avoid contact with skin, eyes and clothing. Do not eat, drink, smoke or use cosmetics while working with this product. Upon completion of work, wash hands before eating, drinking, smoking or use of toilet facilities. Remove and wash contaminated clothing before re-use. Handle in accordance with good industrial hygiene and safety practice.

SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance: Blue liquid.
SAFETY DATA SHEET

Odour : Acrid odor.
Odour threshold : N/Av
pH : 1.0
Melting Point/Freezing point : N/Av
Initial boiling point and boiling range : N/Av
Flash point : N/Av
Flashpoint (Method) : N/Av
Evaporation rate (BuAe = 1) : N/Av
Flammability (solid, gas) : N/Av
Lower flammable limit (% by vol.) : N/Av
Upper flammable limit (% by vol.) : N/Av
Oxidizing properties : None known.
Explosive properties : Not explosive
Vapour pressure : N/Av
Vapour density : N/Av
Relative density / Specific gravity : 1.02 - 1.253
Solubility in water : Soluble
Other solubility(ies) : N/Av
Partition coefficient: n-octanol/water or Coefficient of water/oil distribution : N/Av
Auto-ignition temperature : N/Av
Decomposition temperature : N/Av
Viscosity : 100 (as water and acid)
Volatile (% by weight) : 100 (as water and acid)
Volatile organic Compounds (VOC's) : N/Av
Absolute pressure of container : N/Av
Flame projection length : N/Av
Other physical/chemical comments : No additional information.

SECTION 10. STABILITY AND REACTIVITY

Reactivity : No dangerous reaction known under conditions of normal use.
Chemical stability : Stable under normal conditions.
Possibility of hazardous reactions : Hazardous polymerization does not occur.
Conditions to avoid : Avoid heat and open flame. Ensure adequate ventilation, especially in confined areas. Avoid contact with water.
Incompatible materials : See Section 7 (Handling and Storage) for further details.
Hazardous decomposition products : None known, refer to hazardous combustion products in Section 5.

SECTION 11. TOXICOLOGICAL INFORMATION

Information on likely routes of exposure:
Routes of entry inhalation : YES
Routes of entry skin & eye : YES
Routes of entry Ingestion : YES
SAFETY DATA SHEET

Routes of exposure skin absorption : YES

Potential Health Effects:

Signs and symptoms of short-term (acute) exposure

Sign and symptoms Inhalation

: Harmful or fatal if inhaled. Inhalation of high concentrations of fumes or mists may cause severe irritation and corrosive damage to the nose, throat and upper respiratory tract. Inhalation may cause headache, nausea and central nervous effects such as dizziness, coordination difficulties and unconsciousness. Could result in pulmonary edema (fluid accumulation). Symptoms of pulmonary edema (chest pain, shortness of breath) may be delayed.

Sign and symptoms ingestion

: Harmful or fatal if swallowed. Causes severe irritation, swelling, corrosive burns and damage in mouth and throat. May be absorbed and cause symptoms similar to those for inhalation.

Sign and symptoms skin

: Corrosive to skin. Causes severe burns, symptoms may be delayed. May be absorbed and cause symptoms similar to those for inhalation.

Sign and symptoms eyes

: Corrosive to eyes. Chemical burns, corneal damage, and possibly blindness can result from direct contact. May be absorbed and cause symptoms similar to those for inhalation.

Prolonged or repeated contact may cause drying, cracking and defatting of the skin. Repeated or prolonged exposure may result in kidney effects. In extreme cases, tooth erosion could result. Prolonged exposure may cause skeletal fluorosis (weakened bone structure).

Potential Chronic Health Effects

Mutagenicity : Not expected to be mutagenic in humans.

Carcinogenicity : No components are listed as carcinogens by ACGIH, IARC, OSHA or NTP. IARC has classified "strong inorganic acid mists containing sulphuric acid" as a known carcinogen (IARC category 1). This classification does not apply to this product; it only applies to mists containing sulphuric acid, and not to sulphuric acid or sulphuric acid mixtures.

Reproductive effects & Teratogenicity : Not expected to cause reproductive effects.

Sensitization to material : Not expected to be a skin or respiratory sensitizer.

Specific target organ effects : Eyes, skin, respiratory system, digestive system, central nervous system. This material is not classified as hazardous under U.S. OSHA regulations (29CFR 1910.1200) (Hazcom 2012) and Canadian WHMIS regulations (Hazardous Products Regulations) (WHMIS 2015).

Medical conditions aggravated by overexposure : Pre-existing skin, eye, respiratory and central nervous system disorders.

Synergistic materials : Not available.

Toxicological data : There is no available data for the product itself, only for the ingredients. See below for individual ingredient acute toxicity data.

Mobility in soil: No data is available on the product itself.

Other Adverse Environmental effects:
- The ecological characteristics of this product have not been fully investigated. The product should not be allowed to enter drains or water courses, or be deposited where it can affect ground or surface waters.

SECTION 13. DISPOSAL CONSIDERATIONS

Handling for Disposal:
- Handle waste according to recommendations in Section 7. Empty containers retain residue (liquid and/or vapour) and can be dangerous. Do not cut, weld, drill or grind on or near this container.

Methods of Disposal:
- Dispose of in accordance with federal, provincial and local hazardous waste laws.
- RCRA:
  - If this product, as supplied, becomes a waste in the United States, it may meet the criteria of a hazardous waste as defined under RCRA, Title 40 CFR 261. It is the responsibility of the waste generator to determine the proper waste identification and disposal method. For disposal of unused or waste material, check with local, state and federal environmental agencies.

SARA TITLE III: Sec. 311 and 312, SDS Requirements, 40 CFR 370 Hazard Classes: Health hazards (Acute toxicity; Eye Damage; Skin corrosion). Under SARA Sections 311 and 312, the EPA has established threshold quantities for the reporting of hazardous chemicals. The current thresholds are 500 pounds or the threshold planning quantity (TPQ), whichever is lower, for extremely hazardous substances and 10,000 pounds for all other hazardous chemicals.
