DIESEL INJECTOR CLEANER™

REGEN REDUCTION FORMULA

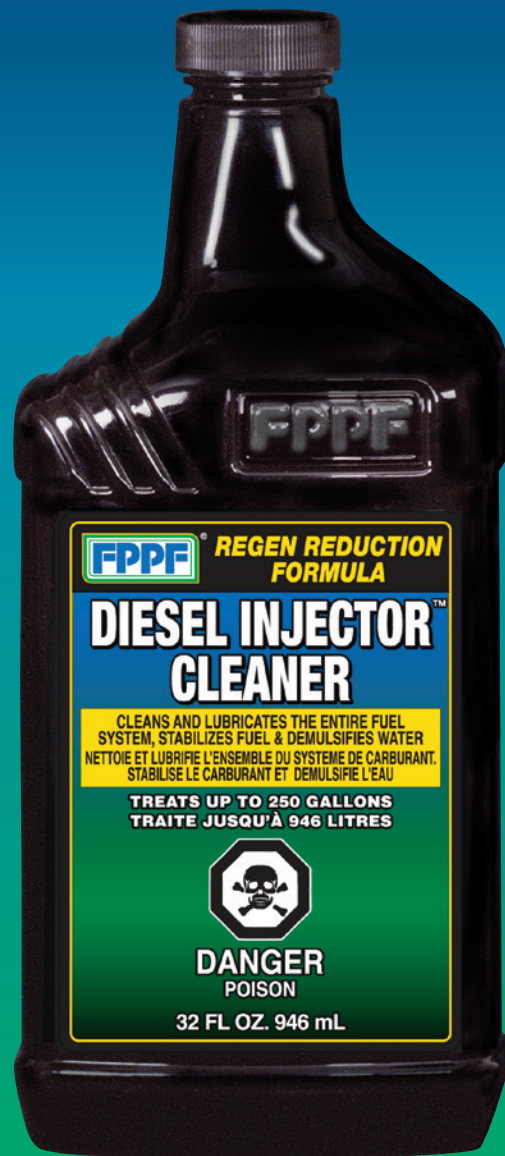

FPPF's Diesel Injector Cleaner is specifically formulated to reduce the number of active, passive and forced regenerations for all Diesel vehicles and equipment. Formulated with the latest state-of-the-art fuel detergents and carbon deposit eliminators, Diesel Injector Cleaner outperforms other injector cleaners hands down. Diesel Injector Cleaner significantly reduces the build-up of deposits in Diesel Particulate Filters (DPF) with regular use.

FPPF's Diesel Injector Cleaner not only eliminates carbon deposits but microscopically breaks them down to a form that enables the engine to burn and remove carbon containing compounds completely while reducing emissions.

Diesel Injector Cleaner will effectively clean both common rail and traditional fuel systems of all mileage and performance reducing deposits with each use. When used regularly, Diesel Injector Cleaner will keep your fuel system as clean as new.

In addition to regeneration reductions and complete fuel system cleaning, Diesel Injector Cleaner raises cetane for better fuel mileage. Further, it increases power and enhances fuel lubricity to offset reduced lubricity in ultra-low sulfur diesel fuels (ULSD). It also helps demulsify water in fuel.

This product is the most complete nonseasonal additive on the market today.

Product Data Sheet

- Significantly reduces active, passive, and forced regenerations in Diesel Particulate Filter Systems
- Works well in both common rail and traditional fuel systems
- Cleans the entire fuel system and keeps it clean with regular use
- Reduces emissions
- Increases fuel cetane
- Increases fuel lubricity
- Helps demulsify water in fuel
- Increases fuel mileage
- Immediate results
- Most complete nonseasonal additive on the market today

For more information consult the Safety Data Sheet for this product. All used and unused products should be disposed of in accordance with local, state and federal regulations.

DIRECTIONS: Add prior to filling for best mixing results.

TREAT AS FOLLOWS:

- Regular application: 1 quart for 250 gallons of fuel
- Intense cleaning: 1 quart for 125 gallons of fuel
- Bulk tank treatment: Regular application – 1 : 1,000; Intense cleaning – 1 : 500

Packaging:

Size	Treats	Qty/Case	Stock #
32 ounce bottle	up to 250 gallons	12/case	90212
5 gallon pail	up to 5,000 gallons	1	00213P
55 gallon drum	up to 55,000 gallons	1	00214
