

**GREAT FOR MULTIPLE APPLICATIONS**

# PREMIUM WASHES

## **Concentrated**

### **TRUCK WASH™**

*Safely attacks stubborn stains on glass, rubber, paint and unfinished metal*

- Removes road film and grease
- Biodegradable
- Can be used with pressure washers and other automatic washing systems
- Superior cleaning action
- Superior sheeting action
- Now with orange oil

## **Metal Brightener**

### **LUSTRE BRITE™**

*Brightens metal surfaces to like-new condition*

- Mild acid formula
- Safe – will not harm glass or painted surfaces
- Will not chalk or whiten finish
- Removes fuel smoke and grime
- Renews original lustre
- Use pressure wash or hand brush
- Biodegradable

## **Acid Enhanced**

### **TRAILER BRIGHTENER™**

*Acid formula to chemically clean oxidation and light corrosion*

- Removes aluminum and steel oxides to significantly brighten metal
- Can be used with pressure washers and other automatic washers
- Superior sheeting action
- Superior cleaning action
- Biodegradable

The Premium Fuel Additive Company

FPPF CHEMICAL COMPANY, INC.

**From the maker of FUEL POWER**

# Product Data Sheet

## TRUCK WASH™

FPPF TRUCK WASH has a combination of detergents and solvents to attack stubborn cleaning problems. Truck Wash has a special additive to weaken surface tension. This promotes sheeting and makes rinsing easier and faster. Truck Wash contains no acids and its solvents are safe for glass, rubber, paint, and unfinished metal. *Truck Wash is labeled for sale in the US and Canada.*

**Consult SDS for safety and first aid.  
Keep out of reach of children.**

**DIRECTIONS:** Use either hot or cold water. Use Truck Wash in the ratio of 1 to 50 parts water for most cleaning jobs. If considerable grime and grease are present use hot water and clean at 1 to 30 parts water ratio. Always apply solution from the bottom to the top. Rinse thoroughly before solution dries.

Item No.	Description	Treats (gal.)	Case Count	Case No.
00361	1 gal. Bottle	40-70	4	00361
00362P	5 gal. Pail	200-350	1	
00363	55 gal. Drum	2200-3850	1	

## LUSTRE BRITE™

FPPF LUSTRE BRITE is a revolutionary cleaning formula that will remove dirt and oils while it brightens metal surfaces to their original like-new condition.

Lustre Brite is safe and will not harm glass or painted surfaces. Lustre Brite is specifically designed for use on all polished aluminum and stainless steel surfaces. *Lustre Brite is labeled for sale in the US and Canada.*

**Warning: wear safety glasses, rubber gloves, and protective clothing when handling Lustre Brite.  
Consult SDS for safety and first aid.  
Keep out of reach of children.**

**DIRECTIONS:** Dilute Lustre Brite at one part to 50 parts water for most mildly dirty surfaces. Increase concentration for dirtier metals. Apply Lustre Brite with pressure equipment or with a natural brush. Let solution work for several minutes and rinse thoroughly. Do not permit solution to dry. Safety glasses and rubber gloves are required for applying Lustre Brite.

Item No.	Description	Treats (gal.)	Case Count	Case No.
00376	1 gal. Bottle	40-70	4	00376
00377P	5 gal. Pail	200-350	1	
00378	55 gal. Drum	2200-3850	1	

## TRAILER BRIGHTENER™

Ordinary detergents and solvents are ineffective on tough metal-cleaning jobs. FPPF TRAILER BRIGHTENER'S formula has a powerful acid formula to chemically clean oxidation from aluminum and stainless steel, and to remove light corrosion. Trailer Brightener's combination of detergents and solvents attack stubborn cleaning problems like dirt, grime, and road film. *Trailer Brightener is labeled for sale in the US and Canada.*

**Warning: wear safety glasses, rubber gloves, and protective clothing when handling Trailer Brightener.  
Consult SDS for safety and first aid.  
Keep out of reach of children.**

**DIRECTIONS:** Dilute Trailer Brightener at 1 part to 70 parts water for mildly dirty surfaces. Increase the Trailer Brightener concentration for dirtier conditions. Maximum suggested ratio 1:40.

Trailer Brightener can be applied with a brush (natural) or with high pressure equipment. Apply Trailer Brightener from bottom to top and let solution work for several minutes. Rinse from top to bottom and do not let solution dry on treated surface. Trailer Brightener is not to be used on painted surfaces, trailer tops, glass, ceramic or anodized aluminum.

Item No.	Description	Treats (gal.)	Case Count	Case No.
00356	1 gal. Bottle	50-75	4	00356
00357P	5 gal. Pail	250-375	1	
00358	55 gal. Drum	2,750-4,125	1
