Boosts Octane, Cleans Injectors and Stops Corrosion

UP YOUR GAS[®]

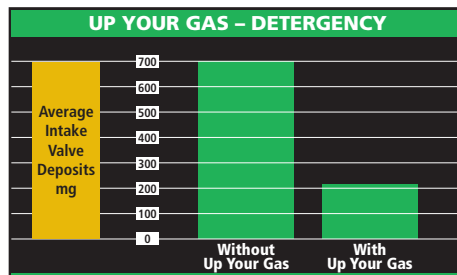

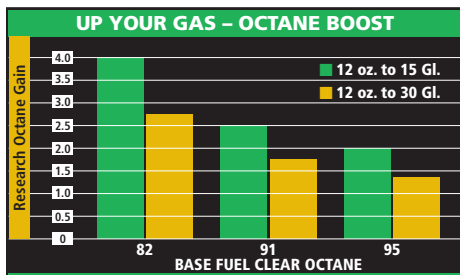

GASOLINE BOOSTER

Super Concentrated. Specifically formulated to increase power and acceleration when added to any grade of gasoline including all ethanol blends E-10/E-85.

FPPF UP Your Gas helps prevent all potential problems associated with ethanol and gas/ethanol blends without invalidating the manufacturer's warranty – problems such as excessive filter plugging, water accumulation in the fuel tank, fuel deterioration and aging, tank corrosion and fuel phasing and separation. Made in the USA. It can be used in all gasoline engines, including automotive, marine, construction, trucks and generators.

Results vary based on vehicle type and base fuel. Results shown are averages of several vehicles tested with different fuels under varying conditions. Increase in octane levels is not guaranteed. Excellent performance in port fuel injected engines as shown by the 69% fleet average clean-up of intake valve deposits. Cleaner valves and injectors = better engine performance. Up Your Gas should be used consistently for best results.

- Increases MPG
- Cleans Injectors, Valves & Fuel Lines
- Water Remover
- Helps Control Fuel/Water Phasing
- Boosts Octane, Power & Performance
- Stabilizes Fuel
- Reduces Emissions
- Improves Acceleration
- Gives You More Power
- Helps Eliminate Sludge and Varnish Buildup
- 100% Soluble in All Grades of Gas
- Protects Against Corrosion
- Prevents Formation of Acids
- Removes Existing Gum & Varnish
- Surface Tension Reducer
- Smoother Engine Operation

Perfect For: Year 'Round Trucking Construction Auto Marine

UP YOUR GAS

Product Data Sheet

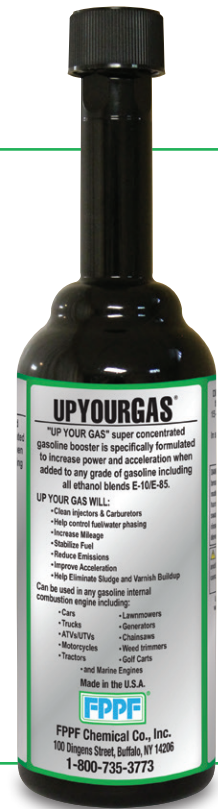

Complete fuel system cleaner. Prolongs the life of your engine. Up Your Gas Gasoline Booster provides multifunctional benefits to improve engine performance and save you money.

Effective in:

- Cars
- Trucks
- ATVs/UTVs
- Motorcycles
- Tractors
- Lawnmowers
- Generators
- Chainsaws
- Weed Trimmers
- Golf Carts
- Marine Engines

Up Your Gas Gasoline Booster will not harm Catalytic Converters.

Can be used as a stabilizer. Double dose for storage.

Three Goals:

1. Improve Gas Mileage
2. Decrease Downtime and Maintenance Costs
3. Extend the Longevity of Equipment

DIRECTIONS: Add prior to filling for best mixing results.

- Bottle will treat 15 – 30 gallons of gasoline.
- Can be used in any gasoline internal combustion engine.
- In smaller tanks or gas cans mix approximately 1 ounce of additive to every 2 gallons of gasoline.

Item #	Unit Size	Treats up To	Case #	Qty/Cs	Weight	Cases/Pallet
00189	12 oz.	30	90189	12	8	80
00146P	5 gl.	1600		1	36	36
00148	55 gl.	17,600		1	395	4

For more information consult the Safety Data Sheet for this product. All used and unused products should be disposed of in accordance with local, state and federal regulations.
