Eliminate Sludge & Water from Your Fuel

SBG[®] SLUDGE BE GONE

SBG is the most effective way to eliminate sludge, dirt and water from storage tanks. The cleaner your storage tank, the better your fuel performs.

The **SBG** chemical base dissolves sludge in your fuel tank into a combustible substance without clogging nozzles, while maintaining clean filters and strainers. Not sure if SBG solves your fuel sludge problem? SBG is effective in #1, 2, 3, 4, 5, 6 and bunker fuels. And if you experience low combustion, SBG also helps to improve atomization and efficient combustion. Prevent the buildup of sludge and sludge-related impurities in your fuel with FPPF Sludge Be Gone.

- Dissolves sludge
- Cleans dirt and other contaminants
- Removes up to 8 ounces of suspended water per bottle added
- Prevents nozzle clogging
- Keeps filters clean longer
- Converts fuel impurities to safe combustible fuel
- Works in all types of fuel
- An important part of an effective Fuel Tank Maintenance Program
- The most cost-effective way to prevent the buildup of sludge and sludge related impurities in your fuel

Perfect For:  Year 'Round

SBG SLUDGE BE GONE

Product Data Sheet

FPPF SBG concentrated formula is specially formulated to eliminate sludge and water in fuel oil storage tanks.

Sludge Be Gone will not harm DPF systems, helps reduce regen.

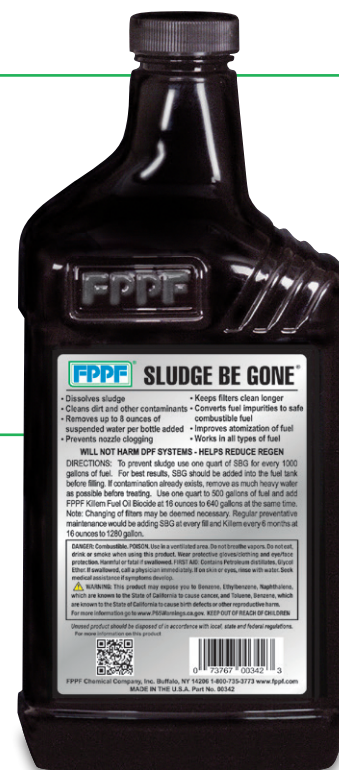

DIRECTIONS:

Add prior to filling for best mixing results.

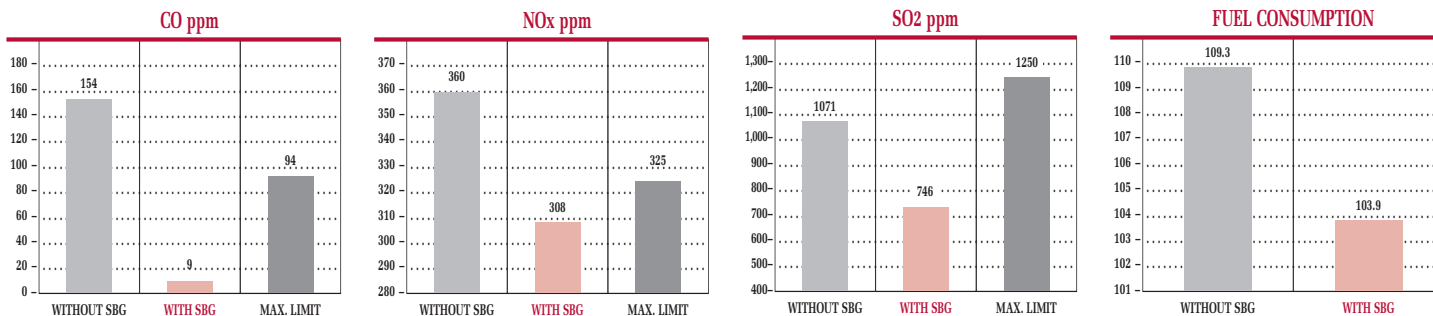

- To prevent sludge, use one quart of SBG for every 1000 gallons of fuel.
- If contamination already exists, remove as much heavy water as possible before treating.
 - Use one quart to 500 gallons of fuel and add FPPF Kill'em Fuel Oil Biocide at 16 ounces to 640 gallons at the same time.

Note: Changing of filters may be deemed necessary.

- Regular preventative maintenance:
 - Add SBG at every fill
 - Add Kill'em every 6 months at 16 ounces to 1280 gallons.

SBG greatly improves fuel emissions. Recent test results using SBG in Heavy Oil Fuels are as follows:

Item #	Unit Size	Treats up To	Case #	Qty/Cs	Case Weight	Cases/Pallet
00342	32 oz.	1000	90342	12	24	48
00359P	5 gl.	20000		1	40	36
00360	55 gl.	220000		1	450	4

For more information consult the Safety Data Sheet for this product. All used and unused products should be disposed of in accordance with local, state and federal regulations.
