## SAFETY DATA SHEET

### SECTION 1. IDENTIFICATION

#### Product identifier used on the label

: **Killem**

Other means of identification : 90119, 00191P, 00120

Product type: Liquid

#### Recommended use of the chemical and restrictions on use

: Biocidal product.

EPA Registration: 1448-171-55737

It is a violation of Federal law to use this product in a manner inconsistent with its labeling

Keep out of reach of children.

Chemical family

: Mixture.

#### Name, address, and telephone number of the supplier:

##### FPPF Chemical Company, Inc.

100 Dingens St.  
Buffalo, NY, USA  
14206

Supplier's Telephone # : (800)735-3773

24 Hr. Emergency Tel # : PERS: North America 1-800-633-8253; International : +1-801-629-0667  
Contract No.: 8027

### SECTION 2. HAZARDS IDENTIFICATION

#### Classification of the chemical

The following OSHA classification is for informational purposes only.  
This material is classified as hazardous under OSHA regulations (29CFR 1910.1200).

#### Hazard classification

Flammable Liquid - Category 4

Acute toxicity, oral - Category 3

Acute toxicity, Inhalation- Category 1

Skin Corrosion/Irritation - Category 1

Serious eye damage -Category 1

Skin sensitization - Category 1

Reproductive toxicity - Category 2

#### Label elements

##### Hazard pictogram(s)

##### Signal Word

DANGER!

Killem

Revision No: 3

SDS Revision Date (mm/dd/yyyy): 01/26/2026

Page 2 of 14

## SAFETY DATA SHEET

*Hazard statement(s)*

- Combustible liquid.
- Toxic if swallowed.
- Causes severe skin burns and eye damage.
- May cause an allergic skin reaction.
- Fatal if inhaled.
- Suspected of damaging fertility or the unborn child.

*Precautionary statement(s)*

**Precautionary:**

- Obtain special instructions before use.
- Do not handle until all safety precautions have been read and understood.
- Keep out of reach of children.
- Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.
- Wear protective gloves, clothing and eye, face protection.
- [In case of inadequate ventilation] wear respiratory protection.
- Use only outdoors or in a well-ventilated area.
- Do not breathe mist or vapor.
- Wash hands thoroughly after handling.
- Do not eat, drink or smoke when using this product.
- Contaminated work clothing should not be allowed out of the workplace.

**Response:**

- Immediately call a POISON CENTER or doctor.
- Get medical advice or attention, call Doctor or POISON CENTER IF exposed or concerned.
- IF SWALLOWED: Rinse mouth. Do NOT induce vomiting.
- IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water.
- Wash contaminated clothing before reuse.
- IF INHALED: Remove person to fresh air and keep comfortable for breathing.
- If skin irritation or rash occurs: Get medical advice or attention.
- IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
- In case of fire: Use water fog, dry chemical, CO2 or 'alcohol' foam to extinguish.

**Storage:**

- Store in well-ventilated place. Keep container tightly closed.
- Keep cool.
- Store locked up.

**Disposal:**

- Dispose of contents and container in accordance with local regulation.

**Other hazards**

Other hazards which do not result in classification: Burning produces obnoxious and toxic fumes. Ingestion may cause gastrointestinal irritation, nausea, vomiting and diarrhea.

**SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS**

All known hazards are clearly communicated within this document

<b><u>Chemical name</u></b>	<b><u>Common name and synonyms</u></b>	<b><u>CAS #</u></b>	<b><u>Concentration (% by weight)</u></b>
<b>Proprietary Glycol Ether</b>	Proprietary	Proprietary	<b>80.0 - 100.0</b>
<b>Proprietary additive</b>	Proprietary	Proprietary	<b>Proprietary</b>
<b>Proprietary additive 2</b>	Proprietary	Proprietary	<b>Proprietary</b>

The exact concentrations of the above listed chemicals are being withheld as a trade secret.

Killem

Revision No: 3

SDS Revision Date (mm/dd/yyyy): 01/26/2026

Page 3 of 14

## SAFETY DATA SHEET

### SECTION 4. FIRST-AID MEASURES

#### Description of first aid measures

- Swallowed (ingested):* :  
  - Immediately call poison control or doctor.
  - Do not induce vomiting unless told to do so by the poison control center or doctor.
  - Do not give any liquid to the person.
  - Do not give anything by mouth to an unconscious person.
- Inhalation* :  
  - Move person to fresh air.
  - If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth to mouth if possible (can use barrier device).
  - Call poison control or doctor for further treatment advice.
- Skin contact* :  
  - Take off contaminated clothing.
  - Rinse skin immediately with plenty of water for 15-20 minutes.
  - Call poison control or doctor for treatment advice.
- Eye contact* :  
  - Hold eye open and rinse slowly and gently with water for 15-20 minutes.
  - Remove contact lense(s). If present and easy to do after the first 5 minutes, then continue rinsing the eye.
  - Call poison control or doctor for further treatment advice.

#### Most important symptoms and effects, both acute and delayed

- : Fatal if inhaled. Symptoms may include coughing, choking and wheezing. Causes serious eye damage. Symptoms may include severe pain, blurred vision, redness and corrosive damage. Causes skin burns. Symptoms may include redness, blistering, pain and swelling. May cause an allergic skin reaction (e.g. swelling, rash and eczema).

#### Indication of any immediate medical attention and special treatment needed

- : Immediate medical attention is required. Causes chemical burns. Treat symptomatically. Contains isocyanates. See information supplied by the manufacturer.

#### Note to Physician:

- Probable mucosal damage may contraindicate the use of gastric lavage.
- This product may pose an aspiration pneumonia hazard. Contains Petroleum distillate.

### SECTION 5. FIRE-FIGHTING MEASURES

#### Extinguishing media

##### *Suitable extinguishing media*

- : Dry chemical, foam, carbon dioxide and water fog.

##### *Unsuitable extinguishing media*

- : Do not use water stream as it may scatter and spread fire.

#### Specific hazards arising from the substance or mixture / Conditions of flammability

- : Combustible liquid and vapor. Keep away from heat, sparks and open flames. May be sensitive to static discharge. Product may float, and be re-ignited at the water's surface. Closed containers may rupture if exposed to excess heat or flame due to a build-up of internal pressure.

#### Flammability classification (OSHA 29 CFR 1910.106)

- : Flammable Liquid - Category 4

#### Hazardous thermal decomposition products

- : Cyanide salts are formed when product contacts strong alkali. Thermal decomposition of product can produce toxic vapors of hydrogen cyanide, carbon disulfide and carbon oxysulfide. Contact with fire may generate oxides of sulfur, nitrogen and carbon.

Killem

Revision No: 3

SDS Revision Date (mm/dd/yyyy): 01/26/2026

Page 4 of 14

## SAFETY DATA SHEET

### Special protective equipment and precautions for firefighters

#### *Protective equipment for fire-fighters*

- : Firefighters must use standard protective equipment including flame retardant coat, helmet with face shield, gloves, rubber boots, and in enclosed spaces, SCBA. Do not enter without wearing specialized protective equipment suitable for the situation. Firefighter's normal protective clothing (Bunker Gear) will not provide adequate protection. A full-body encapsulating chemical protective suit with positive pressure self-contained breathing apparatus (NIOSH approved or equivalent) may be necessary.

#### *Special fire-fighting procedures*

- : Promptly isolate the scene by removing all persons from the vicinity of the incident/fire. Move containers from fire area if safe to do so. Use water spray to keep containers cool. Prevent runoff from fire control or dilution from entering sewers, drains, drinking water supply or any natural waterway. Dike for water control.

## SECTION 6. ACCIDENTAL RELEASE MEASURES

### Personal precautions, protective equipment and emergency procedures

#### **Emergency personnel:**

- : Restrict access to area until completion of clean-up. Ensure clean-up is conducted by trained personnel only. Individuals involved in the cleanup must wear appropriate personal protective equipment. For personal protection see section 8.

#### **For non-emergency personnel:**

No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Shut off all ignition sources. No flares, smoking or flames in hazard area. Do not breathe vapor or mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Use appropriate personal protective equipment.

- Environmental precautions** : Ensure spilled product does not enter drains, sewers, waterways, or confined spaces. If necessary, dike well ahead of the spill to prevent runoff into drains, sewers, or any natural waterway or drinking supply.

### Methods and material for containment and cleaning

- : Ventilate the area. Remove all sources of ignition. Bond and ground transfer containers and equipment to avoid static accumulation. **Small spill:** Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor. **Large spill:** Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous (inert absorbents) earth and place in container for disposal according to local regulations. Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product. Note: see Section 1 for emergency contact Information and Section 13 for waste disposal.

### Special spill response procedures

- : If a spill/release in excess of the EPA reportable quantity is made into the environment, immediately notify the National Response Center in the United States (phone: 1-800-424-8802).  
US CERCLA Reportable quantity (RQ): See section 15.

Revision No: 3

SDS Revision Date (mm/dd/yyyy): 01/26/2026

Page 5 of 14

## SAFETY DATA SHEET

### SECTION 7. HANDLING AND STORAGE

- Precautions for safe handling :** Handle material only after thoroughly reviewing proper use and safe handling instructions on label and SDS. In case of inadequate ventilation wear respiratory protection. Wear protective gloves, clothing and eye, face protection. Keep away from flames and hot surfaces. Persons with a history of skin sensitization problems or asthma, allergies, chronic or recurrent respiratory disease should not be employed in any process in which this preparation is being used. Do not breathe mist. Avoid contact with eyes, skin and clothing. Wash hands thoroughly after handling. Avoid contact with incompatible materials.
- Conditions for safe storage :** Keep containers tightly closed in a dry, cool and well-ventilated place. Protect from sunlight and do not expose to temperatures exceeding 50 °C/122 °F. Store locked up. Store in original container(s) only. Store away from incompatibles and out of direct sunlight. Storage area should be clearly identified, clear of obstruction and accessible only to trained and authorized personnel. Inspect periodically for damage or leaks. No smoking in the area.
- Incompatible materials :** Strong bases, strong acids and oxidizing agents

### SECTION 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

<u>Chemical Name</u>	<u>ACGIH TLV</u>		<u>OSHA PEL</u>	
	<u>TWA</u>	<u>STEL</u>	<u>PEL</u>	<u>STEL</u>
	Proprietary Glycol Ether	Not available.	Not available.	Not available.
Proprietary additive	Not available.	Not available.	Not available.	Not available.
Proprietary additive 2	Not available.	Not available.	Not available.	Not available.

#### Exposure controls

##### **Ventilation and engineering measures**

- : Use only outdoors or in a well-ventilated area. Apply technical measures to comply with the occupational exposure limits. Where reasonably practicable this should be achieved by the use of local exhaust ventilation and good general extraction. In case of insufficient ventilation wear suitable respiratory equipment.

##### **Respiratory protection**

- : If engineering controls and work practices are not effective in controlling exposure to this material, then wear suitable approved respiratory protection. If the TLV is exceeded, a NIOSH/MSHA-approved respirator is advised. Respirators should be selected based on the form and concentration of contaminants in air, and in accordance with OSHA (29 CFR 1910.134) or CSA Z94.4-02.

##### **Skin protection**

- : Wear protective gloves/clothing. Where extensive exposure to product is possible, use resistant coveralls, apron and boots to prevent contact. The suitability for a specific workplace should be discussed with the producers of the protective gloves.

##### **Eye / face protection**

- : Wear as appropriate: Safety glasses with side-shields or chemical splash goggles. A full face shield may also be necessary.

##### **Other protective equipment**

- : Eye wash facilities and emergency shower must be available when handling this product. Other equipment may be required depending on workplace standards.

##### **General hygiene considerations**

- : Do not breathe mist. Do not eat, drink or smoke when using this product. Wash hands thoroughly after handling. Do not get in eyes, on skin, or on clothing. Remove and wash contaminated clothing before re-use. Handle in accordance with good industrial hygiene and safety practice.

## SAFETY DATA SHEET

### SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES

<b>Physical State</b>	: Liquid.
<b>Color</b>	: Clear, amber.
<b>Odor</b>	: Slight odor
<b>Odor threshold</b>	: Not available
<b>pH</b>	: Not available
<b>Melting Point/Freezing point</b>	: < -30°C (< -22°F)
<b>Initial boiling point and boiling range</b>	: >100°F (>212°C)
<b>Flash point</b>	: 70°C ( 158°F)
<b>Flashpoint (Method)</b>	: Tag closed cup
<b>Evaporation rate (BuAe = 1)</b>	: Not available
<b>Flammability</b>	: Combustible
<b>Lower explosion or flammability limit (% by vol.)</b>	: Not available
<b>Upper explosion or flammability limit (% by vol.)</b>	: Not available
<b>Vapour pressure</b>	: Not available
<b>Relative vapour density</b>	: Not available
<b>Relative density / Specific gravity</b>	: 1.03
<b>Solubility in water</b>	: Not available. Dispersibility properties: Cold & Hot water - Dispersible
<b>Other solubility(ies)</b>	: Not available
<b>Partition coefficient: n-octanol/water</b>	: Not applicable.
<b>Auto-ignition temperature</b>	: Not available
<b>Decomposition temperature</b>	: Will decompose if exposed to high temperature
<b>Viscosity</b>	: Not available
<b>Particle characteristics</b>	: Not applicable.
<b>Volatiles (% by weight)</b>	: Not available
<b>Volatile organic Compounds (VOC's)</b>	: 94%
<b>Absolute pressure of container</b>	: Will decompose if exposed to high temperature
<b>Other physical/chemical comments</b>	: Not applicable

### SECTION 10. STABILITY AND REACTIVITY

<b>Reactivity</b>	: Not normally reactive.
<b>Chemical stability</b>	: Stable under normal conditions. Do not store above 50 degrees Celsius / 122 Fahrenheit.
<b>Possibility of hazardous reactions</b>	: If ambient temperature is maintained during storage and uses, hazardous reactions will not occur.
<b>Conditions to avoid</b>	: Do not use in areas without adequate ventilation. Take precautionary measures against static discharge. Do not cut, weld, braze, solder, drill, grind or expose containers to heat, flame, spark or other sources of ignition. Avoid contact with incompatible materials.

Killem

Revision No: 3

SDS Revision Date (mm/dd/yyyy): 01/26/2026

Page 7 of 14

## SAFETY DATA SHEET

**Incompatible materials** : Strong bases, strong acids, and oxidizers

**Hazardous decomposition products**

: Cyanide salts are formed when product contacts strong alkali. Thermal decomposition of product can produce toxic vapors of hydrogen cyanide, carbon disulfide and carbon oxisulfide. Contact with fire may generate oxides of sulfur, nitrogen and carbon.

### SECTION 11. TOXICOLOGICAL INFORMATION

#### Information on likely routes of exposure:

**Routes of entry inhalation** : YES

**Routes of entry skin & eye** : YES

**Routes of entry Ingestion** : NO

**Routes of exposure skin absorption**

: YES

#### Potential Health Effects:

##### **Signs and symptoms of short-term (acute) exposure**

*Sign and symptoms Inhalation*

: Fatal if inhaled. May cause respiratory irritation. Symptoms may include coughing, choking and wheezing.

*Sign and symptoms ingestion*

: Toxic if swallowed. Ingestion may cause gastrointestinal irritation, nausea, vomiting and diarrhea.

*Sign and symptoms skin*

: Causes severe burns. Symptoms may include blistering, ulcerations and scarring. May cause an allergic skin reaction (e.g. swelling, rash and eczema).

*Sign and symptoms eyes*

: Causes serious eye damage. Symptoms may include severe pain, blurred vision, redness and corrosive damage.

##### **Potential Chronic Health Effects**

: Prolonged or repeated contact may cause drying, cracking and defatting of the skin.

##### **Mutagenicity**

: Not expected to be mutagenic in humans. Mutagenicity testing and 52-week rat studies on the active ingredients show no evidence of carcinogenic effects.

##### **Carcinogenicity**

: No components are listed as carcinogens by ACGIH, IARC, OSHA or NTP.

##### **Reproductive effects & Teratogenicity**

: Reproductive toxicity - Category 2. Suspected of damaging fertility or the unborn child and increase in fetal death

##### **Sensitization to material**

: May cause an allergic skin reaction (e.g. swelling, rash and eczema). Not expected to be a respiratory sensitizer.

##### **Specific target organ effects**

: The substance or mixture is not classified as specific target organ toxicant, single exposure.  
The substance or mixture is not classified as specific target organ toxicant, repeated exposure.

##### **Medical conditions aggravated by overexposure**

: Persons with a history of skin sensitisation problems or asthma, allergies, chronic or recurrent respiratory disease should not be employed in any process in which this preparation is being used.

##### **Synergistic materials**

: Not available.

##### **Toxicological data**

: The calculated ATE values for this mixture are: There is no available data for the product itself, only for the ingredients. See below for individual ingredient acute toxicity data.

ATE oral = 250mg/kg

ATE inhalation (mists) = 0.28 mg/L

## SAFETY DATA SHEET

### Persistence and degradability

: No data is available on the product itself.

### Bioaccumulation potential

: No data is available on the product itself. See the following data for ingredient information.

### Mobility in soil

: No data is available on the product itself.

### Other Adverse Environmental effects

: The ecological characteristics of this product have not been fully investigated. The product should not be allowed to enter drains or water courses, or be deposited where it can affect ground or surface waters.

## SECTION 13. DISPOSAL CONSIDERATIONS

### Handling for Disposal

: Handle in accordance with good industrial hygiene and safety practice. Refer to protective measures listed in sections 7 and 8.

### Methods of Disposal

: Dispose in accordance with all applicable regulations.

### RCRA

: If this product, as supplied, becomes a waste in the United States, it may meet the criteria of a hazardous waste as defined under RCRA, Title 40 CFR 261. It is the responsibility of the waste generator to determine the proper waste identification and disposal method. For disposal of unused or waste material, check with local, state and federal environmental agencies.

## SAFETY DATA SHEET

U.S. Federal Insecticide, Fungicide and Rodenticide Act (FIFRA) information:

EPA Registration number 1448-171

This chemical is a pesticide product registered by the United States Environmental Protection Agency and is subject to certain labeling requirements under federal pesticide law. These requirements differ from the classification criteria and hazard information required for safety data sheets (SDS), and for workplace labels of non-pesticide chemicals. The hazard information required on the pesticide label is reproduced below. The pesticide label also includes other important information, including directions for use.

**DANGER.** Corrosive. Causes irreversible eye damage and skin burns. May be fatal if swallowed or inhaled. Do not breathe vapor or spray mist. Do not get in eyes, on skin, or on clothing. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals. Wear goggles or face shield. Wear coveralls over long-sleeved shirt and long pants; socks and chemical resistant footwear; chemical-resistant gloves such as barrier laminate, butyl rubber, nitrile rubber, neoprene rubber, polyvinyl chloride or viton; and respirator with an organic vapor removing cartridge with a prefilter approved for pesticides (MSHA/NIOSH approval number prefix TC-23C); or a canister approved for pesticides (MSHA/NIOSH approval number prefix TC-14G); or a NIOSH approved respirator with an organic vapor (OV) cartridge or canister with any R, P, or HE prefilter. In addition to the PPE listed above, mixers, loaders, and cleaners of equipment must also wear chemical-resistant apron. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove and wash contaminated clothing before reuse.

**User Safety Requirements:** Follow manufacturer's instructions for cleaning/maintaining PPE. If no instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry. Discard clothing and other absorbent materials that have been drenched or heavily contaminated with this product's concentrate. Do not reuse them.

**User Safety Recommendation:** User should wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet. User should remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing. Users should remove PPE immediately after handling this product. As soon as possible, wash thoroughly and change into clean clothing.

**ENVIRONMENTAL HAZARDS:** This product is toxic to fish, aquatic invertebrates, oysters and shrimp. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional office of the EPA.

**PHYSICAL AND CHEMICAL HAZARDS:** Do not expose to extreme temperatures

**US State Right to Know Laws:**

California Proposition 65: **WARNING:** This product can expose you to chemicals including 2-Mercaptobenzothiazole, Naphthalene and 1,4-Dioxane, which are known to the State of California to cause cancer, and Ethylene Glycol, Ethylene glycol monomethyl ether, Ethylene glycol monoethyl ether, Methanol and hydrogen cyanide & cyanide salts, which are known to the State of California to cause birth defects or other reproductive harm. For more information go to [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov).

The following chemicals are specifically listed by individual States:

<u>Ingredients</u>	<u>CAS #</u>	<u>State "Right to Know" Lists</u>					
		<u>CA</u>	<u>MA</u>	<u>MN</u>	<u>NJ</u>	<u>PA</u>	<u>RI</u>
Proprietary Glycol Ether	Proprietary	No	No	No	No	No	No
Proprietary additive	Proprietary	No	No	No	No	No	No
Proprietary additive 2	Proprietary	No	No	No	No	No	No

## SAFETY DATA SHEET

### Canadian Information:

Canadian Environmental Protection Act (CEPA) information: All ingredients listed appear on the Domestic Substances List (DSL).

### International Information:

Components listed below are present on the following International Inventory list:

<u>Ingredients</u>	<u>CAS #</u>	<u>European EINECs</u>	<u>Australia AICS</u>	<u>Philippines PICCS</u>	<u>Japan ENCS</u>	<u>Korea KECI/KECL</u>	<u>China IECSC</u>	<u>NewZealand IOC</u>
Proprietary Glycol Ether	Proprietary	Present	Not available.	Not available.	Not available.	Not available.	Not available.	Not available.
Proprietary additive	Proprietary	Present	Not available.	Not available.	Not available.	Not available.	Not available.	Not available.
Proprietary additive 2	Proprietary	Present	Not available.	Not available.	Not available.	Not available.	Not available.	Not available.

### SECTION 16. OTHER INFORMATION

#### Legend:

ACGIH: American Conference of Governmental Industrial Hygienists	N/Ap: Not Applicable
ATE: Acute Toxicity Estimate	N/Av: Not Available
CAS: Chemical Abstract Services	NIOSH: National Institute of Occupational Safety and Health
CERCLA: Comprehensive Environmental Response, Compensation, and Liability Act of 1980	NOEC: No observable effect concentration
CFR: Code of Federal Regulations	NTP: National Toxicology Program
CSA: Canadian Standards Association	OECD: Organization for Economic Co-operation and Development
DOT: Department of Transportation	OSHA: Occupational Safety and Health Administration
EC50: Effective Concentration 50%	PEL: Permissible exposure limit
EINECS: European Inventory of Existing Commercial Chemical Substances	PICCS: Philippine Inventory of Chemicals and Chemical Substances
EPA: Environmental Protection Agency	SARA: Superfund Amendments and Reauthorization Act
IARC: International Agency for Research on Cancer	SDS: Safety Data Sheet
IECSC: Inventory of Existing Chemical Substances	STEL: Short Term Exposure Limit
IMDG: International Maritime Dangerous Goods	TDG: Canadian Transportation of Dangerous Goods Act & Regulations
KECI: Korean Existing Chemicals Inventory	TLV: Threshold Limit Values
KECL: Korean Existing Chemicals List LC: Lethal Concentration	TPQ: Threshold Planning Quantity
LD: Lethal Dose	TSCA: Toxic Substance Control Act
